

WEB HANDLING:

The Keys to Optimal Control

Presentation on February 17th at 3-4 PM
Discussion and drinks to follow

Every manufacturer's goal is precise, repeatable control. Whether you're coating, printing or laminating, your winder plays a crucial role in overall efficiency. Tension controls are key to both the quality of the product and reliability of the machine.

To better help our customers and business partners, Sure Controls developed a comprehensive web handling teaching tool, [you can see here.](#)

Join GBIG and Sure Controls for an interactive presentation on Thursday, February 17th and we will cover the following:

- Design & System Build
- Selecting Components
- Maintaining Optimal Control
- Diagnose & Repair

Location: Sure Controls Office - N981 Tower View Drive, Greenville, WI 54942

Time: Presentation 3-4 PM, Discussion and drinks to follow.

We have a limited number of spots available. To save your seat, make sure to register at <https://greenbayinnovationgroup.com/events/>
