

College of Engineering

UNIVERSITY OF WISCONSIN-MADISON

A special invitation

.....

Join us on **Thursday, May 30, 2024**, at the [DoubleTree Appleton](#) for an afternoon with the University of Wisconsin-Madison College of Engineering!

"College of Engineering: Today, Tomorrow, and Beyond" is an event that offers a unique opportunity to engage with leading experts in sustainable energy. Our keynote presentation, **"Innovation for Sustainable Energy: Economic Perspectives"**, explores how cutting-edge engineering research can drive economic growth and provide practical industry solutions.

Learn how these innovations create new business opportunities, improve efficiency, and reduce costs. Hear from Grainger Dean Ian Robertson, Oliver Schmitz, Director of the [Grainger Institute of Engineering](#) and Thomas and Suzanne Werner Professor for Engineering Physics, and other experts as they discuss projects that could transform the energy landscape.

Enjoy networking, engaging conversations, and a closer look at how the College of Engineering is at the forefront of education, research, and industry partnerships.
