

# ENGINEERING THE NEXT ERA IN MANUFACTURING

The **Wisconsin Drives Manufacturing Summit** brings together manufacturers, innovators, researchers, and technology leaders to tackle the challenges shaping the future of American manufacturing. This isn't a conference you attend—it's a platform you work within.

#### Over two days, participants will:

- Explore emerging technologies at the **Innovation Showcase**
- Pressure-test strategies with peers during **The Summit**
- Walk away with **actionable solutions** that strengthen workforce, technology adoption, and U.S. manufacturing competitiveness

#### Tracks focus on three core drivers:

- **Workplace:** Building a resilient, future-ready workforce
- **Technology:** Applying automation and digital tools for real-world impact
- **American Made:** Strengthening domestic manufacturing and supply chain resilience

## JOIN US AT THE **WISCONSIN DRIVES MANUFACTURING SUMMIT**

A two-day working event built by industry, for industry.

**June 1-2, 2026**  
**Lambeau Field, Green Bay, WI**
